

2005 CENSUS SURVEY

ANNOUNCEMENTS FOR CONGREGATIONAL NEWSLETTERS AND BULLETINS

Week of October 2, 2005

Have you filled out your census questionnaire yet? If not, a census worker will visit you to help you complete the survey. Please be patient and cooperative. The count of residents from this census is important to our community. The census numbers will determine how much state funding our community will receive. Your answers are confidential and protected by law.

Week of October 9, 2005

Census workers are visiting residents who did not respond to the survey. Your individual answers are completely confidential and cannot be accessed by any government agency—not the IRS, welfare agencies, immigration services, the police or even the president. Your answers are combined with others to produce the statistical summaries that are published. No one can connect your answers with your name or address. Please verify that the census worker has official identification, then cooperate and help make sure that our community has the best information for getting its fair share of state funding.
